ISSUED EVERY TUESDAY MORNING IN TIME FOR THE MAILS

EGYPT AND EUROPE.

The Shocking Results of the Riots,

THE REPARATIQN OF THE ALLIES.

Foreigners Flocing from Egypt.

LONDON, June 15.—In the house of Commons, Arnold, liberal, called attention to the fact that Cookson, British consul at Alexandria, had in September informed Arabi Pasha that if the Egyptian army persisted in assuming government of the country it must be prepared to meet the united forces of the sultan and Europe, as the country could not be permitted to lapse into a state of anarchy. He asked whether the language had been approved by the government. Dilke, under foreign secretary, said it was correctly reported; the language was quite right to assume, and government approved it

LONDON, June 16.—In commons Gladstone stated England's relations with Turkey were never more friendly. He was not on the way to Egypt. A dispatch from Alexandria states the custom house has been opened.

NEW YORK, June 16. — Herald's Alexandria special says: Matters are no better. Alarm is spreading to the valleys. All trains from the interior are crowded. Every ship in the harbor is crowded. The British Admiral has chartered special steamers. The American ship Galena is assisting all fugitives of unprotected nationalities. The captain has been ordered by Vice Consul Comanns to advise all Americans to come on board, and has chartered the bark Sarona expressly to afford more accommodations. Judge Fannan and Judge Barringer and wife are offered all needful protection. The American Government should send a special Consul General to Egypt. The Consul has just received an order from the Sultan to go back to Cairo. His obedience is doubtful. A Cairo correspondent writes that there a fearful panic there, which Arabi is doing all he can to calm. Last night there was great excitement, but the soldiers prevented a riot. The American Government should send a ship to Ismated to succor Cairo fugitives. Matters throughout the country are most alarming. There is a universal expression of praise for the Galena, for the succor rendered. It would be a mistake to remove this popular ship from Europe at the present moment. British subjects have been ordered to quit this city instantly. The Governor of Alexandria is holding an inquiry into the last massacre. Evidence is difficult to obtain. The English admiral has buried the cable and telegraph. The ship Chilton has been ordered here for service in case the cable is cut on shore.

ALEXANDRIA, June 15.—The council of war has instructed troops to strictly maintain order.

Four policemen were arrested on a charge of aiding rioters Sunday.

A street quarrel yesterday caused a fresh panic but Egyptian troops suppressed the disturbance. The governor and military commandant admit they have no control over the situation, and soldiers only obey their colonels. The khedive expressed the hope that eighteen thousand Turks will be shortly on the way to Egypt. After the reception yesterday he informed the Europeans he had divided towns into districts and made an officer responsible for each. He said four hundred and thirty ring-leaders in Sunday's riots had been arrested and would be placed on board a ship in the harbor.

The Turkish vessel which arrived yesterday brought Osman Bey, aid-de-camp of the sultan with instructions for Dervish Pasha.

Admiral Seymour has seized the steamer Marinze to convey fugitives from Egypt.

Identical instructions have been sent French and English consuls and admirals in regard to protection to be afforded Europeans in Egypt. The instructions are energetic.

The British channel fleet, consisting of five large ships, sailed east from Gibralter Thursday morning.

It is stated that the channel squadron has not gone to Alexandria, but for a cruise on the north coast of Egypt.

ALEXANDRIA, June 16.—Dervisch Pasha expresses full confidence in the loyalty of Egyptian troops. Turkish troops, however, are ready to start for Egypt if necessary. Dervisch Pasha thinks he can settle the difficulty in a few days.

LONDON, JUNE 16.—A correspondent of the *Times* at Alexandria says the real and only serious danger is from native troops, who are thoroughly in sympathy with the rabble and will tire of guarding Europeans and take part against them. The correspondent urges immediate action. He says directly Europeans are ready to land troops they will have to decide between fighting and submitting. In the first case they would have to deal with invaders, and foreigners could in the meanwhile hold their own against the rabble.

CAIRO, June 16.—The panic is becoming worse hourly. Shops are all closed. Some Frenchmen unable to leave are fortifying themselves in their houses. Germany and Austria oppose the dispatch of Turkish troops to Egypt on the ground it would cause a fresh outbreak.

LONDON, June 15.—Private advices from Cairo state that all Europeans have left there including the staff of the Eastern Cable Co.

LONDON, June 16. — The *Times'* correspondent at Alexandria telegraphs that 10,000 persons are supposed to have left there thus far, leaving many servants and workmen without employment. The custom house has been closed. The postmaster doubts his ability to continue postal service. Probably the freight employees and engineers at the junction of Mahmonit Canal with the Nile will threaten to quit work, which action might imperil the water supply. A dispatch from Constantinople states that the Porte has been assured that the conference will be strictly confined to a discussion of the Egyptian question. Spain considers she should be represented in the conference as the Suez Canal is the shortest route to her possessions.

LONDON, June 16.—The Lord Downshire, the largest sailing vessel ever constructed, sailed from Belfast a short time ago for San Francisco. She is constructed of steel, is 230 feet long and has four masts.

LONDON, June 17.—The police made a raid on a stable in Clerkenwell, London, and seized 100,000 rounds of ammunition packed in boxes ready for shipment to Ireland. Four hundred rifles with bayonets and 25 boxes of revolvers were also captured.

DUBLIN, June 17.—*Freeman's Journal* publishes a document purporting to be a circular from the commander of Dublin district giving military dispositions to be observed in event of any disturbance in the city. The document states the whole garrison is held in readiness to turn out under arms. Artillery is to be furnished with full complement of ammunition and a tabulated form of points to be occupied and used as field hospitals is appended. The "Journal" says the circular is marked strictly confidential. It has reason to believe the document is not a hoax.

ALEXANDRIA, June 17.—Up to last evening the total number of corpses found of Europeans killed in last Sunday's riots were 304. An eye witness states that the Europeans who took refuge in the police stations were massacred by gen d'armes. A correspondent declares the rising was organized by prefects of police. Thousands of Europeans are arriving from the interior.

LONDON, June 17.—The government, with the approval of France and Turkey, has determined to protect the Suez canal with British troops. Transports accordingly have been ordered ready for embarkation.

PORTSMOUTH, June 17. — The light draught gunboats Dee and Don have been ordered immediately to join the squadron of Admiral Seymour at Alexandria.

Raghob Pasha has consented to undertake the formation of a ministry.

Russia is preparing to send men of war to Alexandria.

ST. PETERSBURG, June 17.—The minister of interior has ordered the suspension of the newspaper *Minuta* for three months.

ST. PETERSBURG, June 17.—The Minister of the Interior has ordered a suspension of newspaper minister for three months. There aremany complaints of depredations by Chinese soldiers on the inhabitants of its territory, Kuldia. The telegraph line is removed as the Chinese contiually damage it.

LONDON, June 17. — The Commons adopted clauses 7 and 8 of the Repression bill. The government accepted the amendment that magistrates should appear at meetings and summon the people to disperse.

Gladstone declined to introduce a bill suspending evictions for six months.

DUBLIN, June 17.—Anna Parnell writes that the fund for the maintenance of suspects, for which £25,000 have been collected and £15,000 spent, should now be closed.

A man arrested at King's Court, on suspicion of being one of the murderers of Lord Frederick Cavendish and Under Secretary Burke, has been released

Col. Brackenbury, director of the new criminal investigation department of Ireland, has prepared extensive plans against secret societies, based upon investigations made in America.

LONDON, June 17. — The *Daily News*, commenting on Trescott's dispatches to Secretary Frelinghuysen, says none of European powers would refuse to try to effect peace between Peru and Chili, and if so requested by the belligerents, coerce Chili at the request of Peru.

BERLIN, June 17.—The Reichstag has agreed to Bismarck's motion for proroguing until Nov. 30.

WEDNESDAY MORNING, JUNE 21st, 1882.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

MR. SHAKESPEARE'S ADDRESS.

His Worship the Mayor, who is a candidate for the commons, yesterday issued an address for distribution. He announces himself a supporter of the present government; favors assisted white immigration; denounces in strong terms the presence and continued arrival of hordes of Chinese. He advocates a reciprocity treaty between the Sandwich Islands and Canada; will urge the admission of fish and fish oils duty free to American ports, and a practical geological and mineralogical survey of Vancouver Island; the laying of a telegraphic cable across the Straits, the establishment of daily mail communication with ports on Puget Sound and he will strongly press the demand for compensation for delays in railway construction. The doctrine of independence is as abhorrent to Mr. Shakespeare as it should be to the mind of every British subject. "No greater calamity could befall the Dominion" than "the severance of those ties which bind us to the Mother country," says Mr. S. In conclusion, the Mayor promises upon a future occasion to meet the public and discuss the various political topics of the day. The address, taken either in whole or in part, is admirable. The variety of topics touched upon is surprising while its chief merit lies in its practicability and earnestness. Mr. SHAKESPEARE'S chances of election are, we think, excellent.

MR. DECOSMOS' ADDRESS AND MR. BEAVEN.

We have neither time nor space today to review the address of the late member for this city at Ottawa, but hope to do the document justice to morrow. We cannot refrain from saying, however, that the uncomplimentary allusion to Mr. BEAVEN'S action in moving the resoluton that killed the Dunsmuir Island railway bill might have been dispensed with in the address. It is bad enough for Mr. BEAVEN to rest under the discredit of having imperiled the last chance of securing the Island railway; but Mr. DECOSMOS should not be foremost in pelting him for the act. From the hands of the late member for the city Mr. BEAVEN is deserving of kindness and gratitude, for has not the premier grown roundshouldered in packing "pap" to Mr. DECOSMOS' printing office?

THE POST AND THE ORGAN.

The organ is much exercised over the drubbing administered by the *Post* and thinks that "reparation should be made." The public are of the same opinion. "Reparation is due to Mr. BEAVEN by the organ for its shameful desertion of that candidate in his hour of need. Whatever may be Mr. BEAVEN'S political faults, he deserved a fair support from his nap-gorged organ, instead of a silence which extended over a week, and until Mr. BEAVEN, in a moment of indignation at what he conceived to be a base instance of treachery and ingratitude is said to have *offered the whole of the printing to the Post if it would support him.*'

Mr. Beaven, and the Evening Post to the Rescue.

TO THE EDITOR:—A very amusing article appeared in the *Post* of Saturday coaxing the electors of Victoria to vote for Mr. Beaven, whose political career is drawn so whimsically that some careless readers may not detect the coloured fiction which pervades this elaborate effusion.

If Mr. Beaven was made commissioner of lands and works under Mr. Walkem, the premier in 1874, why was the Esquimalt graving dock not commenced according to the terms of confederation instead of the money being squandered in jobbery on a road between New Westminster and Yale, which is worse than worthless?

The provincial treasury was not only exhausted in three years under Mr. Beaven's bad management, but the debt and liabilities were over $900,000 (as Mr. McCreight can prove) when the Elliott government were called upon to retrieve the losses which their predecessors had inflicted.

Was not a premium of $600 paid to Mr. DeCosmos for aiding them to borrow $30,000 from the late Sir James Douglas, and were they not imploring aid (on their marrowbones) from the Dominion government at the very time when we were accusing it of breach of contract?

Did Mr. Beaven prove himself an able financier when he opposed the Elliott government in borrowing money on bonds in England at five per cent. to pay off debentures at seven per cent., and tradesmen and contractors who were pressing hard for their well-earned money?

I have yet to learn that all the debts of the province have been paid by the Beaven and Walkem government. We shall know more about them when Reid Brothers, McNamee, Robertson, Nicholson & Co. and Kinnipple & Morris have been settled with and all the bonds and debentures are redeemed.

If further contracts have been dealt with as carefully as if they were Mr. Beaven's own, how did it happen that Hayward & Jenkinson had to go to London for Reid Brothers to do the work for them? and why did McNamee & Co. come to Victoria for sub-contractors who have been ruined by the job and jobbery surroundings of the graving dock?

And how did it happen that Walkem was allowed to waste so much money in sight-seeing on his trip to London when cement, freight and machinery cost double what it ought to have done?

And how came this model finance minister to pay Mr. DeCosmos six thousand dollars for an excursion to Europe, when all the work he did, according to his own showing, was accomplished in about two weeks, if we can believe he had anything whatever to do with fixing the terminus at Port Moody when we all know that "Howe Sound" and the so-called Waddington harbour were his everlasting hobbies.

I need not allude to all that took place under the able administration of Mr. McCreight and the feeble support given by Mr. Beaven in the initiation of the new government, which the *Post* appears to ignore. But the incidents connected with the treacherous proceedings at Kriemler's farm are not yet forgotten.

That Mr. Beaven may be a hardworking man, I am not prepared to deny. "That he is the first at the treasury in the morning and the last to leave in the evening," everybody (who knows him as I do) can believe. When the loaves and fishes are there he will be found; and "to the victors belong the spoils" is the war cry of his party and we know the reason why!

As I am not a bitter opponent of Mr. Beaven, I dare not insinuate any thing that I cannot prove, but the less we say about his political honesty or his little negligences the better for him.

If his escutcheon be without a stain the sooner he is promoted the better I shall be pleased; and if the powers that make Mr. Walkem a judge can only make Mr. Beaven a bishop the better it will be for this province is the humble opinion of your obedient servant,

DETECTOR.

Base Ball.

TO THE EDITOR: The duties of an umpire in a match game of base ball is doubtless the most trying of any game played, requiring thorough knowledge of the game, quickness and firmness in giving decisions and free from excitement. That Mr. W. G. Cameron has proven himself equal to this trying position in this city is recognized by our ball players and the reflection attempted to be cast by "Independent" upon his rulings in the match game played last Saturday must be viewed by the lookers on simply as an excuse for an action of which "Independent" is ashamed.

ON LOOKER.

FRIGHTFUL TORNADO IN THE WEST.

Awful Destruction of Human Life and Property.

DE MOINES, June 19.—A special to the "State Register" says the surgeons report 41 dead at Grinnell, and say five or six more will not live through the night. Deignan, the Rock Island conductor, is dead. Surgeons reported that the number of wounded exceed 15, and the number of houses destroyed or ruined is between 140 and 150. Total loss of property is now estimated at six hundred thousand dollars. It is feared the number of deaths at Grinnell will yet reach 75.

A special train with physicians was sent out from here. Register posts sends the following: 32 people are dead; about 100 or more are wounded.

LEAVENSWORTH, Ka., June 17.—A terrible wind storm prevailed between 12 and 1 o'clock this morning and Mount St. Mary's Academy, four miles south of the city suffered terribly. The main tower was blown over the dormitory, crushing in the roof, and Ida Golden, Annie McDonald and Mabel and McLachlin of this city, and Mary Carrollton, Mo., aged from 11 to 15 years, were instantly killed and three other children injured. The Kansas Central elevator was blown down: loss $50,000. Loss in city and country about $500,000.

There is a report in political circles that as soon as Lieutenant-Governor Robitaille's term of office has expired, he will not be re-appointed to a second term, but will be made a Senator, and be succeeded as Lieutenant-Governor by Sir Hector Langevin; whose position at Ottawa will be taken by Mr. Chapleau, Mr. Loranger becoming Premier of Quebec.

WINNIPEG, May 30.—The Legislature was prorogued to-day with the usual ceremonies. At last night's session Speaker McMicken took occasion, while the House was in committee, to denounce the Government in the strongest terms. He vehemently accused them of frittering away money and of fraud. He was called to order several times, and the supporters of the Government decided to pass a motion of censure for his unseemly conduct, but finally concluded to allow the matter to drop.

It is rumoured that Hon. D. L. Macpherson, Speaker of the Senate, will succeed Sir A. T. Galt as Canadian High Commissioner to England.

Suicide of a Sea Captain.

WILLMINGTON, June 15.—The dead body of Capt. Charles Ainsworth, of the American bark Dublin, was found this morning near the coal sheds of the S. P. R. R. Co., at this place. From appearances life had been extinct some hours. Near him was found a small vial that had contained laudanum and a paper that was labelled arsenic, which still contained a small portion of powder. The coroner's verdict was that his death was caused by laudanum and arsenic administered by his own hand. A sum of money, watch and key were found upon his person, but no paper or message of any kind that would throw light upon cause for the deed.

SAN JOSE, June 19.—Delegates are gathering. The talk is that Hearst's slate is broken, and Johnson stands to win. It seems settled Boggs will be the chairman.

LATER FROM WRANGEL AND SITKA.

ARRIVAL AT WRANGEL OF THE U. S. S. CORWIN

WITH THE SHIPWRECKED PEOPLE OF THE RODGERS.

A Sad Tale of Suffering Yet to be Written.

The U. S. mail steamship Idaho arrived at Port Townsend Wednesday evening. Her passengers for San Francisco embarked on the George W. Elder and arrived yesterday a.m.

Hon. J. S. Oakford, collector of customs at Wrangel, who is *en route* for Portland on official business, came over in the G. W. Elder and leaves this a. m. in the G. E. Starr for Portland.

The U. S. revenue steamer Corwin arrived at Wrangel June 15th from St. Lawrence Bay via Sitka. The Corwin has as passengers Master Waring, Ensign Story, Engineer Zane, Doctors Jones and Costello, and 27 men of the late U. S. ship Rodgers destroyed by fire in November last at St. Lawrence Bay on the Siberian coast. The officers and crew of the wrecked Rodgers are now in good health, though they suffered severely for want of food and were reduced to the verge of starvation before the termination of their detention of over five months at St. Lawrence Bay.

Commander Berry and Ensign Hunt of the Rodgers started overland from St. Lawrence Bay February 19th to join Melville in his search for the missing men of the Jeannette.

A sad disaster occurred in February. Several sledge parties were out in search of food and when returning over the ice at the head of the bay in a severe storm of blinding hail and snow. Ensign Putnam mistook the trail and venturing too far from the land was drifted off to sea upon an ice floe.

The Rodgers took fire in the forehold where the coal was stored and as the timbers of the ship were saturated with oil (she had been a whaler) she burned with great rapidity and the officers and crew were unable to save either provisions or their personal effects. The Corwin arrived at St. Lawrence Bay, May 14th, and met the steam whaler North Star coming out bound to Ounalaska with the officers and crew of the Rodgers. The shipwrecked party were at once transferred to the Corwin and the North Star proceeded on her cruise to the Arctic ocean.

The Corwin was to leave Wrangel on June 17th direct for San Francisco.

The Idaho left Juineau City on the 13th; Sitka on the 15th and Wrangel at midnight on the 16th inst.

At Juineau (Takou) the snow wrs melting very fast and the placer miners expected to be actively at work in a few days. The Treadwell mill on Douglas Island was crushing ten tons of quartz per day with profitable results and upwards of $2000 had been collected from the placers in the two weeks the men had been at work.

At Sitka and Wrangel everything was quiet. The U. S. ship Wachusett left Wrangel June 16th for a cruise to Sitka and Juineau (Takou) and is expected to return to Wrangel in three or four weeks.

Mme. Rivo-King.

We feel positive that the cultivated portion of Victoria have not the slightest conception of what a great artist Mme. Rivé-King really is. Notwithstanding the eminent position Mme. Rivé-King occupies in the world of art, but a limited number of our citizens knew of her brilliant reputation. She has been constantly before the public for the past nine years and has been the "Star" in all the great concerts in the United States. The most eminent critics, all the leading journals, and prominent musicians have everywhere accorded her an artist of the highest rank.

This being true, she does not come to Victoria for glory or criticism, for we must accept her, and respect her, as an artist of the first calibre whether we endorse her or not, and this review of her performance is not intended to sustain or refute what has been so unanimously written in praise of Mme. Rivé-King in almost every art centre throughout Germany, the United States and Canada, but is intended specially to arouse our citizens to a realization of what they will lose if they miss hearing her.

Mme. King's numbers last evening were the "Sonata Pathetique," Beethoven; the Prelude, *d* flat; Cradle Song and the Valse in *a* flat of Chopin; and Liszt's Rhapsodie Hongroise, No. 2.

We wish to award Mme. King especial praise and thanks for the excellence of her selections. She has treated our public, away up here in the extreme northwest, where she is the first classical artist that has ever visited us, and has played music of the highest class, in fact, the same selections as she would have played before a London or a New York audience.

This is paying a high compliment to the intelligence and cultivation of our people. She assumes that we are capable of appreciating the highest form of art, and treats us accordingly.

There was no *trash* or ear-tickling melodies on her programme. She believes in raising the public up, and not stooping to the level of the public.

Now for a candid consideration of Mme Rive-King's powers. The writer begins to assure Mme Rive-King that he has heard the majority of the renowned pianists of the world, among them Liszt Rubinstein, Bulow, Clara Schumann, Planté, Halle, Goddard, etc. Essipoff and Joseffy, whose names appear frequently in Mme King's eastern criticisms we have not heard.

The first impression one receives of Mme. King as she steps upon the stage and gracefully takes her seat at the piano, is that she is extremely modest and unassuming, there is no fuss, no airs, no ruffling of flounces, or nonsense of any kind. She has not played twenty bars when you rub your eyes and look again to fairly convince yourself that a woman is playing. Such power, such a large full tone, such a masterly style, is heard from very few men, and when she reached the pianissimo passages, her delicacy was as astonishing as her power. Mme King's technique is flawless. Her runs, no matter how rapid and intricate, were executed with the utmost ease and with the greatest clearness; her octave passages were given with precision and without a blur; her trills were produced with great eveness and velocity and her chords were clear cut and evenly balanced. She uses the pedals with consumate skill and taste. One of her most charming qualities is her lovely touch, it is an extremely musical one producing the finest tone we ever heard from the piano. Mme Rivé-King has also a warm heart as well as intelligent brains. She plays with deep feeling but without any mawkish sentimentality. She has proved herself worthy of all the eomiums that have been showered upon her. Of her superb playing of the Beethoven Sonata, the three beautiful Chopin and the great Rhapsodie of Liszt. We have no space to go into detail but will do so in a future *resume* of the season. Suffice it to say that they were all most artistically rendered, preference if any being awarded to the sonata.

Of the vocalists Mr. Kinross is an old favorite and we have on a former occasion recorded our opinion of his singing. His work last evening proves that he has not lost any of his powers. He was most enthusiastically received.

Mrs. Stetson, Mrs. Porteous, Miss Griffin and Mr. Clark all sang acceptably and the audience applauded their work.

Mr. Edgar Coursen's accompaniments were played exquisitely. The vocalists were very materially aided by his musicianly and artistic support.

Loss of the Steamship Escambia.

A telegram to Mr. R. P. Rithet, of this city, yesterday afternoon, announced the sinking of the British steamship Escambia, Capt. Pervis, in the south channel of San Francisco harbor. The cause of the disaster is not given, but as she left Nanaimo on the 7th and reached San Francisco on the 12th, it is supposed she must have been leaving port on an outward bound voyage. She took down about 3000 tons of Wellington coal, which may have been discharged before the loss of the ship occurred. No information has been received as to whether she struck a rock or sprung aleak. It appears that she is lying in one of the channels on the bar of the harbor, and probably in the way of shipping entering, as one object of telegraphing the disaster to this city was to notify captains of vessels going down as to the whereabouts of the wreck. The Escambia, it will be remembered, brought about 900 coolies for the C. P. R. a few weeks ago from Hongkong.

Inverness Items.

News from the Inverness cannery is to the effect that 1000 cases of spring salmon had been packed to the 11th June, and about 2000 more cases were expected from the same source. Mr. Duncan's manager was nearly well again. The difficulty between Mr. White, the business manager, and the Chinamen originated in this wise: A Chinaman disobeyed orders and in an attempt to expel him from the cannery he bit Mr. W.'s thumb. Subsequently eight Chinese made an assault upon Mr. White with soldering irons, but the whites and Indians rushed to the defence and prevented the infliction of bodily harm. The offending Chinese were then discharged and came down on the Otter.

Comox.

Dr. Ash, we regret to hear, has decided not to be a candidate for re-election in Comox district. The Doctor has faithfully represented Comox disirict in the local House since confederation, and his withdrawal will be much regretted.

THE High School examination will take place to-day.

What Some People Say.

That Capt. Thomas Wright is at Seattle trying to make up his mind what to do with the sunken steamer Eliza Anderson.

That the premier is still searching for supporters. He says he might hunt for a needle in a haystack with a better prospect of finding it.

That Mr. DeCosmos, whose organ advised people to withhold their pledges until all the candidates are in the field, has been canvassing right and left.

That the *Standard* says it never notices curs that bark at its heels. This is probably why people say that the leader-writer of the *Standard* is "where the dogs won't bite him."

That W. H. Vanderbilt, the railway king, is on the way to Winnipeg.

That the occupation of the "spirits" will soon be "gone." A telephone wire is being extended to the cemetery.

That the steamer Otter will sail for the North Monday evening, the 26th.

That the Port Townsend *Argus* is a sprightly daily.

That George Vienna had a 50-pound salmon in his market yesterday.

That the new attorney-general's pedigree appeared in the organ yesterday. He stands for Esquimalt.

That ignorance, self-sufficiency, presumption and arrogance will received a shock at the approaching election.

That Mr. Hett is in despair at his chances in Esquimalt distict. The electors prefer their own residents.

That this is the longest day of the year.

That Mr. Beaven and the *Standard* have dissolved partnership. What will Robert do now—do now?

That Mr. John Grant is the Opposition candidate for Cassiar.

That the Grappler goes North on Friday evening.

Lator from Cassiar.

Mr. George Deacon arrived yesterday with the mails and express from Cassiar by the Idaho, *via* Port Townsend, 20 days from Dease creek. He came down to Wrangel by the last and fourth round trip of the Gertrude this season. She will make one more trip on the arrival of steamers from this city before leaving the Skeena river for good. Mining news is not important. Two tunnel claims on Thibert creek were paying pretty well; several others were only doing fairly. Generally speaking, miners were doing about as well as could be expected. Dease lake was expected to be clear of ice on the 9th inst. Nine of the prospecting parties had returned when Mr. Deacon left on the 1st. Fred. Black and Charley Walker went out some 150 miles from Dease creek prospecting and were daily expected back. Other parties were also looked for from the Deloire and other districts of country. The winter, though severe and much snow, passed away with but little sickness among the white population and no deaths. Mr. Vowell was met at the 23-Mile House on the portage. Complaints loud and long were everywhere heard with reference to the infrequency of mails and the cost of getting letters and papers into the various creeks, 50 cents a letter being an enormous tax upon the 300 miners and traders, Chinamen included, that were in the district. The 300 a heep taken up by the Sardonyx were shipped on board the Gertrude at Wrangel and reached Glenora Landing in a good condition.

Oregon—The Salmon Pack.

Chapman is elected mayor over Thompson.

The salmon pack to June 1st was 136,000 cases, about 3370 lighter than last year. Up to that date the run had been "scrubby." The number caught were up to average, but a considerable proportion were small. Since the 1st the run has been excellent. An opinion prevails among cannerymen that last year's pack of 550,000 cases will nearly be reached this season, which closes by August 1st. It is understood, however, that the fishermen will continue, later than August 1st, provided the catch will justify. The Oregon and Washington Legislature each passed law forbidding fishing after August 1st', but as it would be hard for the prosecution to prove whether fish were caught in Oregon or Washington Territory waters, conviction, if attempted, would scarcely be possible. Eleven deaths by drowning among fishermen were reported to date.

Marine.

Steamship Geo. W. Elder arrived from Puget Sound ports at 7 o'clock yesterday morning and sailed at noon for San Francisco. She has about 100 passengers and 1124 tons freight for San Francisco.

Ship Loretto Fish, 1944 tons, has been chartered at Portland, wheat to Liverpool direct, £2 5s.

Barque Martha arrived in Esquimalt harbor yesterday afternoon from Hongkong with 358 Chinamen for Portland. Dr. Jackson, the health officer, found them cleanly and in good health.

Barque Haggett anchored in Royal Roads yesterday afternoon from Hongkong with 350 Chinamen also for Portland.

Both the above vessels are consigned to Tai Chong, of this city.

YESTERDAY'S POLICE COURT.—Two drunk's paid five shillings each for their indiscretions. George Hughes for selling gin to an Indian got six months' imprisonment with hard labor; and for buying 25 cents. worth of gin for another Indian three months more were added to the above-mentioned six, thus securing him work in the chaingang the balance of the summer and all next winter.

THE steamer Western Slope left New Westminster at 2:30 a.m. yesterday; called at English's new cannery and at Ladner's landing to discharge freight, and arrived at Victoria at 8:30 o'clock. She sails for Yale direct at 1 p.m. to-day.

LADIES LAND LEAGUES.

VIGOROUS DENUNCIATION BY BISHOP GILMOUR OF OHIO.

Women to Abandon the Leagues or Be Excommunicated.

CLEVELAND, Ohio, June 2d, 1882.

Bishop Gilmour has become noted for his strong opposition to the formation of ladies' land leagues, but notwithstanding his opposition such a league has been formed here and the result is a bitter controversy with the Bishop, which must result either in the disbanding of the league or excommunication of its members. In a recent lecture on the Irish situation the Bishop severely criticised the movement, and in return both the Parnell branches of the Land League and its feminine ally took occasion to criticise the Bishop in equally severe language. The trouble has resulted in a card, which the Bishop makes public through the *Catholic Universe* to-day. It covers the controversy well, and its meaning is obvious. It is as follows:—

BISHOP GILMOUR'S CARD.

In answer to my grave and severe criticism of last week on the formation of a ladies' branch of the Parnell Land League of Cleveland the presidentess thereof, last Sunday afternoon, informs her audience and the public that they must "away with such dictation" as their Bishop gave them when he told them that the noisy political arena was no place for woman; it was said at the same meeting, "If they were to be ruled by Scotch, or Italian, or English priests we had better shut down on the whole lot." Another addresses his Bishop as "Gilmour," and the tone of all the addresses is so flagrantly disrespectful of bishop and priest that it becomes necessary to speak in terms that will leave no misunderstanding. So long as this Parnell branch of the Land League confined itself to a simple discussion of the Irish question I passed them in comparative silence, as I am slightly in sympathy with the cause of Ireland and have ever spoken in clear terms upon the question, both in Cleveland and elsewhere. When time and place presented an opportunity no man has ever spoken stronger words than I on the wrongs of Ireland. As seen in my late lecture on the Land League, I resent and to-day resent the imputation and charge so industriously made by men of this Parnell branch of the Land League, that because I refused to advocate the "no rent" policy, so lately in vogue, that therefore I am an enemy of Ireland. I repeated such charge is simply untrue.

So long as this Land League society had confined itself to male membership they and I would have probably had but a difference of opinion as to the means to help the cause of Ireland. They had their views; I had mine, and we were free to differ as men and to act it out as men. But when they bring women into the political arena, and will attempt to unsex the women of my flock and make them brawling politicians, and under a plea of patriotism attempt to destroy female modesty, and so bring shame on every Catholic woman of Cleveland, then it is time to speak in words that will end dispute. When question is squarely raised on choosing between female modesty and pretended patriotism I then place myself on the side of female modesty, and when it comes to defending the female modesty of my flock as against the brazen unwomanliness of female politicians, I accept the gauge and will see that no Catholic woman within my diocese shall turn herself into a brawling politician. If there are women of these kind, and if there are women in Cleveland who will turn themselves into brawling politicians, then they shall know that they are so no longer. No woman shall be a Catholic and a brawling politician. The Catholic woman must live within the modesty of home, she must be an ornament of the family circle and her womanly delicacy and gentle nature shall not be tainted with the noisy brawl of the virago. Woman must be woman. Women shall not be permitted to unsex themselves and at the same time, within the limits of the diocese of Cleveland, remain members of the Catholic Church.

Now, therefore I, Richard Gilmour, by the grace of God and the appointment of the Apostolic See Bishop of Cleveland, hereby and by these presents excommunicate *ipso facto* and within the limits of the diocese of Cleveland cut off from the communion of the Catholic Church any woman now a member of the Parnell Branch of the Ladies' Land League of Cleveland who shall attend any meeting of such Ladies' Land League in what is known as Parnell Hall, Cleveland, or in other halls whether such meeting be held next Sunday afternoon hereafter or at any other time or place. I further declare excommunicated *ipso facto* and within the limits of the diocese of Cleveland, cut off from the communion of the Catholic Church any woman or women who shall after the publication of this join said mentioned Ladies' Land League. Female modesty must be maintained, let the cost be what it may. No Catholic woman shall be permitted to forget her womanhood, or if she does she shall within the diocese of Cleveland cease to be in communion with the Catholic Church.

We hereby direct that next Sunday, the 4th inst., this letter shall be read at all masses in all the English speaking churches of the city of Cleveland, and we also direct pastors to warn the women of their respective congregations against joining the above Ladies' Land League, or in any manner countenancing any movement which will tend to taint or lessen among us Catholic female modesty.

Given under my hand and seal at my episcopal residence, Cleveland, this 1st day of June, 1882.

R. GILMOUR,
Bishop of Cleveland.

The publication of the card causes great consternation in Catholic circles and attracts considerable outside attention, and the action of the League, the regular meeting of which will be held next Sunday afternoon, is looked to with much interest.

MEXICO.

NEW YORK, June 19.—A special from Matamoras, Mexico, says a dispatch from Chihuahua to-day states that 27 Apache prisoners were captured in the recent fights with Jesus and Maria. The bands were taken out in the field yesterday and shot. They behaved with wonderful bravery, each one meeting his fate with remarkable coolnes, and looking defiantly at their executioners.

EASTERN STATES.

A Plot to Assassinate the President.

WASHINGTON, June 17.—A special under date of Boston, June 15, to an evening paper here, says:—A plot to assassinate President Arthur and Chas. H. Reed has been formed in Boston. The members are men and women who believe Arthur hired Guiteau to murder Garfield, and has hired Reed to defend him (Guiteau). I care nothing for Reed, but don't want Arthur murdered. Make this public, for heaven's sake, and avert ruin to the government. Do not think this a crank's communication, for it is not; but pay heed to it. The plan is to be put into execution the 2nd of July, 1882, unless Guiteau is hanged the previous Friday. Make this public. It won't take much room.

BOSTON, June 17.—This morning Timothy Remeek's cotton waste mill at Boston Highlands took fire. The building contained much cotton waste, which, thoroughly soaked by water from the engines, became so heavy as to burst the walls, which fell upon several firemen, who were badly injured. Thos. Killahan, it is feared, is fatally hurt.

PITTSBURG, Pa., June 16.—It is reported at the iron association rooms that strikers sent committees to two mills offering to resume work at the old wages. In mining matters little is new. Twelve out of twenty mines on the Panhandle are being operated with colored non-union men.

IOWA CITY, June 19.—Specials report the loss of life at Irish Ridge as 10 to 12.

BOONE, June 19.—The tornado struck the southwestern part of Boone County on Saturday evening at 8 o'clock. It was plainly seen here, and seemed twenty miles away. Reports are just coming in of great destruction in that section.

CHICAGO, June 19.—A terrible cyclone struck this city yesterday evening, blowing down several houses, killing Dick Turner, capsizing and sinking the steamer G. E. Walker, and scattering harvested wheat in the vicinity. The damage is heavy.

ATCHISON, Kansas, June 19.—Many small towns and hamlets were visited, and all are in mourning over the loss of life and property. A family of three are reported drowned in a flatboat, 13 miles below here.

CAIRO, Ill., June 19.—A heavy wind and rain storm this afternoon did much damage to buildings and crops. One person was killed at the metropolis, and the steamer Jennie Waller was sunk.

General European News

BERLIN, June 19.—England and France's promised conference on Egyptian affairs will meet on the 22nd at Constantinople. Meanwhile, the Khedive, Dervish Pasha and Arabi Pasha promised to maintain order.

CAIRO, June 19.—Arabi Pasha, in presenting prizes to the pupils of the Italian college, said the public security would be guaranteed. Batteries have arrived at Alexandria on the night trains of the past few days.

LONDON, June 19.—The cabinet to-day considers the State affairs of Egypt.

Thos. Walsh, an Irishman, tenant of a house in Clerkenwell, where the ammunition and firearms were seized, has been arrested. From the fact that he has assisted emigrants to America it is inferred he is in connection with parties in the United States. Since Walsh's arrest another 5000 rounds of ammunition have been seized at his residence in Hatton Garden.

LONDON, June 19.—A correspondent at Berlin says Herr Meliry, one of the principal navigators in the German navy, has been arrested at Nice on the charge of having accepted a bribe of 1,500,000 roubles to deliver to the Russian government copies of the plans of all works of defence on the German coast.

The *Times* says 18 gunboats can, if necessary, be immediately overhauled for starting to the Suez canal.

BERLIN, June 15.—In Reichstag yesterday, Bismarck replying to criticisms as to the largeness of the military budget, said the millions of bayonets maintained by Germany's neighbors pointed to the centre of Europe as to a magnet. Germany might have coalition against her as in former times. He had thus far been able to frustrate such coalition, but only because the strength of Germany was known. In view, he said, of the slightly developed national feeling of our countrymen, the French do not abandon the hope of getting back Alsace and Lorraine.

Michael Davitt in New York.

Michael Davitt has reached New York. He denied that he is a Communist or has given utterance to Communistic sentiments. He expressed his condemnation of the cowardly assassination of friendly Englishmen in Phœnix Park, the growing horror of the people at the deed, and said there was a general impression it was the work of landlords to incite the English people against Parnell and the conversion of Gladstone. The only parties who would profit by it would be those opposed to the League, as they knew the odium would fall upon the leaders. Gladstone's position he considers critical, particularly on the Egyptian question, and the bringing forward of the arrears bill and the second attempt to deal with the land act, and its failure to justify the opposition of Parnell. The arrears bill was a confession that the land act was a failure. As to Minister Lowell, the agitator knew little, but of his own opinion he thinks that the blame lies not so much on Lowell as it does on the government in Washington. He says he will not enter Parliament again, as he can do no more effective work outside. Landlordism as a system, he claims, is broken and demoralized, and the question of self-government will follow in the wake of the Land League movement, as, politically, landlordism is now a myth.
